Dom Pedro Golf Vilamoura Embarks on Extensive Renovation of the Iconic Old Course

Dom Pedro Golf Vilamoura, recently named the 2024 IAGTO Portugal Golf Resort of the Year, is embarking on a comprehensive renovation of the iconic Old Course. This extensive project aims to modernize and enhance one of the Algarve's most historic and beloved golf destinations.

Extensive and Sustainable Renovations

The Old Course, the second oldest golf course in the Algarve, has been

undergoing significant updates over the past few months. These improvements are designed to be both fundamental and sustainable, ensuring the course remains a premier golfing destination. A key highlight of the renovation is the introduction of a new state-of-the-art clubhouse, scheduled to open in November. This new facility will feature enhanced amenities including an upgraded entrance, a modernized golf shop, a luxurious living room, a refined restaurant, a stylish bar, and a spacious terrace area.

On-Course Enhancements

In addition to the clubhouse, Dom Pedro Golf Vilamoura has implemented a wide range of on-course improvements. These updates are focused on maintaining the course's reputation as one of the Algarve's finest. Notable renovations include:

Sustainability Initiatives

A new long-term strategy has been adopted to make the Old Course one of Europe's most environmentally friendly golf courses. This includes the installation of advanced sprinkler systems and water-resistant grass varieties to reduce water consumption. Hydro pressor stations will be introduced to decrease energy consumption, and new 100 percent electric machinery will be employed.

Course Maintenance and Enhancements.

The greens and fairways will receive thorough maintenance. Bunkers will be revitalized with new sand, reshaped lips, and adjusted slopes. Tee boxes will be planted with Bermuda grass, their roots sanitized, levelled, and occasionally reoriented to enhance sustainability.

Aesthetic Improvements.

The overall appearance of the course will be significantly enhanced, with greater definition between the grassed play areas and the iconic pine tree landscape. This will not only improve the visual appeal but also the quality of the playing experience, as the fairways will receive more sunlight.

Minimal Disruption to Golfers.

Despite the extensive renovations, the Old Course has remained open, ensuring minimal disruption to golfers. All on-course developments are expected to be completed by the end of August, allowing visitors to continue enjoying their golfing experience during the renovation period.

Vision and Leadership.

Nuno Sepúlveda, Co-CEO of DETAILS, the management platform overseeing all of Vilamoura's golfing assets, highlighted the strategic vision behind the renovations:

"The renovations of the Old Course align with our long-term vision of enhancing quality, sophistication, and providing an effortless guest experience. These improvements are specifically aimed at maintaining high standards in golfing facilities and services, reinforcing Vilamoura's image as a premier golf destination. The renovations are meticulously planned to respect the classic design and rich heritage of the Old Course, while still introducing enhancements that elevate the overall golfing experience. By carefully balancing the old with the new, we ensure that the course remains a cherished destination for golfers."

Future Prospects

With these significant updates, Dom Pedro Golf Vilamoura is set to elevate the Old Course to new heights, ensuring it remains a top choice for golfers worldwide. The blend of sustainability and modernization, while preserving the course's historic charm, promises to offer an unparalleled golfing experience.
