Portugal - Haven for Digital Nomads

An attention grabbing headline in the 22nd October issue of the Portugal News really stood out!

Introducing a new visa for Digital Nomads with the aim of attracting a new generation of highly skilled people to live here in Portugal.

Imagine sitting on your sunny terrace enjoying the fresh air and beautiful view, at the same time as fulfilling your purpose in life and earning your salary at a reduced rate of income tax!

This dream is now a reality!

With leaps and bounds in technology in recent years many people are locating themselves wherever their hearts desire and doing the job of their dreams to support themselves.

No wonder then that Portugal, a world leader in attracting wealthy retirees and entrepreneurs away from their countries of origin to partake in low taxes and favourable living conditions, has grabbed another sector of the market to offer these benefits to.

As long as you have not been a tax resident of Portugal in the last five years, and you earn a minimum \$32,760 per annum, you can now take advantage of this new scheme.

With the average age of the population currently at 45.8 years, perhaps this new government scheme will drive that average age down yet further.

Testimonial Of The Week

David and his team at Olive Homes have been brilliant throughout the entire process of buying our first home in Portugal. They have a very honest approach and we felt as though we could trust them from the outset. They have gone above and beyond what we expected, helping us settle in and find everything local we need. David and his wife even took us to dinner which was really appreciated as we haven't met too many people here yet. Overall, the service and the genuine approach has been excellent and we highly recommend Olive homes if you are looking to buy in the Algarve.
