Portugal - Why it's top of the list!

Many of us have enjoyed living in Portugal for several years. The beautiful scenery, the fresh food, the warm winters, manageable summers, family-focussed restaurants, the kind people, the freedom and safety. We've had it so good and for so long that we almost take it for granted. These have been the ingredients that have attracted fellow investors and holiday makers to purchase villas and apartments over the years.

If you've kept a close eye on Portugal then you'll have seen the popularity of the country go through the roof over the last few years and this has seen the demand exceed the supply of properties - forcing prices up.

If you'd like to see - in a nutshell - why Portugal is attracting so much interest then read our article on why it's number 1 for a worldwide audience. [Read more here to discover the reasons!](#)

The demand seems relentless and with only 1 house being built for every 9 sold (source INE - Institute of Statistics) then it seems the prices will continue to increase. We are not sure when the ceiling will be hit but, as our article suggests, if you're looking to buy then we recommend you do it sooner rather than later!
